

jelly seat

# jelly seat

## Name

Jelly Seat

## Design by

One Foot Taller

## Product Background

Designed in 2000 for House for an Art Lover. A giant jelly mound is an attractive and approachable thing to sit on or play around. The product was originally produced in cast crumb rubber and was slightly soft to the touch. This version in fibreglass is longer lasting and cheaper.

## Colour

Red, pink, orange, green, yellow, white, or blue.

## Dimensions

700mm dia x 450mm high

## Weight

Approx 10kg

## Materials

Fibreglass

## Care

Polish and wax (car wax) every 2 months for long lasting colour and surface quality.

## Parts Supplied

Jelly seat with extra 50mm and flange, for underground attachment to concrete anchors.
